

ADVANCED VoIP COMMUNICATIONS

We deliver high class business phones with the features you expect: high definition audio, large screen size, bluetooth, wireless, expansion module, and work-from-home capable.

BUSINESS Phone SOLUTIONS

Nextworks Voice™ provides precisely customized and well supported phone solutions allowing you to increase customer satisfaction and heighten the efficiency of your organization.

01

A DIFFERENT CLASS

Surpassing national providers in capability, support, and relationship

02

A BETTER FIT

Working together to identify and deliver your optimal call-flow strategy

VOICE

Distinct Solution.
Local Service.

Established in 2011

Locally Owned & Operated

Servicing the Greater
Portland / Vancouver Area

Limit your personal cell phone use for company business. A Nextworks softphone app allows:

- Your customers call your business number instead of employees' personal numbers
- Seamless communication with co-workers and integration into your call-flow
- Separate work from personal calls

NEXTWORKS™

Portland | Vancouver

Get Fast & Local Support

Pride is taken in our rapid response. Our support team is friendly and capable. Support requests are mostly solved online. We come on-site as needed.

- ▷ Average seven-minute response time
- ▷ Online portal for easy requests and status
- ▷ A cohesive support team that is aware of each client's individual call-flow

Your Blueprint

As your local business voice partner, we carefully work together to architect a call flow that best fits your organization. This included service is a Nextworks distinct advantage over the competition.

Outside the Office

Travelling or working remotely? You can use a softphone instead of a physical desk phone. The softphone can be placed on either a computer or cell phone.

Why Nextworks?

- ✓ Our client relationships are long-term. We've never lost a client due to a lack of performance.
- ✓ Our client loyalty is earned by our quick response time, effective communication, and positive results.
- ✓ High employee retention builds a team that works successfully.
- ✓ We are process driven, backed by experience.

ON-SITE

INSTALLATION & SUPPORT

A Nextworks VoIP engineer can evaluate your ability to host VoIP phones. We will then deliver and install your phones.

Because we are local, support is conducted on-site when required. You won't find this ability from national VoIP providers.

Cloud Enabled

We replace conventional phone lines with less expensive and more capable cloud technology. Ask us how we can save you money with Nextworks Voice™.
